- Successfully handled clients individually and provided support to them.

PROJECTS

Daisy Health (React Js, REST APIs)

- Project Link: <https://www.daisy-health.com/>
- Worked as a front-end developer and developed various parts of frontends like Listing pages(pagination, sorting, filter), Forms, etc.
- Used RestAPIs for all the CRUD operations and Redux for pagination, sorting, and filters.

Good Market (React Js, REST APIs)

- Project Link: <https://www.goodmarket.global/>
- As a React developer and I have developed various parts of frontend like Customer Management, Product Form, Product Listing, Checkout Page, etc.
- To communicate with backend we have used REST APIs.

SMS Gateway, Payment Integration, Shipping Integration & eBay Integration (Magento 2)

- In Magento 2, worked on various integration requirements like SMS Gateway Integration, Payment Method Integration, Shipping Method Integration and eBay Integration.

Advertisement & Single Seller Checkout Extension (Magento 2)

- Developed an Advertisement module in which admin can list stores of sellers which then redirect to their specific websites. This was the clients specific requirement, and worked on its design part in Codazon theme to properly place that section on frontend.
- Built a single seller checkout module in which only one sellers product can be bought at a time.

Personal Projects (React JS)

- Built a Youtube Clone App with basic features using React Js and Javascript.
- To understand the flow of Ecommerce, developer an E-commerce platform with functionality like listing products, filters, sorting, pagination, adding products to a cart, product detail page
- Projects Portfolio: <https://sameerkhan-sde.netlify.app/>
